

## **THE FAB\* FACTS OF THE VENDFRIEND CLEAN WATER SYSTEM**

### **(\*Features, Advantages & Benefits)**

- > **Specifically designed and engineered for use on vending machines serving hot and/or cold drink products.**
- > **Removes the dissolved minerals commonly found in water supplies.**
- > **Produces consistently cleaner, healthier and safer water.**
- > **Vastly improves quality and taste of all beverages.**
- > **Creates customer total satisfaction.**
- > **Significantly reduces product throws.**
- > **Cost effective.**
- > **Made with the highest quality materials.**
- > **Easily installs either inside or outside of machine.**
- > **Measures only 6" diameter x 20" height.**
- > **Has quick disconnect couplers with automatic water shut-offs.**
- > **No moving parts.**
- > **Requires no electricity or drains.**
- > **Works in harmony with your in-line charcoal/final filter.**
- > **Eliminates scale build-up on valves, hoses, heating elements, tanks, floats, etc.**
- > **Ends water-related service problems and down time.**
- > **Extends the life of vending parts and machines.**
- > **Easily regenerated for pennies and used over and over indefinitely.**
- > **Assures that every machine will perform and produce at its highest standard of excellence.**
